

I support increased taxes to pay for a better transit system

Electric multiple units providing subway-like service on Fairmount Line

A resilient, interconnected and comprehensive system

**SYSTEM RELIABILITY**  
Without reliability growth and even usefulness is lost.

## BRAINSTORMING FOR 2040

Name one goal that the Focus40 investment plan should work to achieve.

Stadler Flyer summary: recommendation for Fairmount Line & commuter rail; Stadler is design/build firm

A transportation service goal that 75% of all trips will be faster by transit and bike than car inside Route 128

Financially stable MBTA

Jpods postcard summary: Jpods are cost effective solar powered mobility solutions; urges passage of Senate Bill 1837

Multi-story, mixed use vehicle maintenance facilities, integrated into neighborhoods

Off-board fare collection on all buses and Green Lines – faster service!

Improve connectivity between subway and commuter rail

Commuter rail frequencies.  
Clock-face headways

People should be nicer to customers throughout the system

Integration of driverless cars into providing transit on a 24/7 basis

**Name one goal that the Focus40 investment plan should work to achieve.**

Increase subway /commuter rail bus connectivity

Keep system running in extreme situations like weather

Late night/early morning bus service

Set an enforceable target for reducing GHG emissions from the transportation sector

Maintenance and revamping projects to high demand light rail stations

Adequate revenue

Reliable rapid  
transit service

North-South  
Station link

Pass S1837

Urban ring  
subway - cut  
and cover  
Broadway in  
South Boston

Multimodal  
connectivity and  
first/last mile  
from MBTA

**Name one goal  
that the  
Focus40  
investment plan  
should work to  
achieve.**

Create access  
  
Less cars

Capital cost  
control

Make your most  
vulnerable assets  
resilient to coastal  
flooding (sea level  
rise & storm  
surge)

Public transportation  
is: reliable,  
comfortable, safe,  
and more convenient  
than a car

Complete the  
subway line to  
128 (and) blue  
line to Lynn  
and Red Blue  
Connector

Vetted plan for  
2040 climate  
change  
adaptations  
for public  
transit
