

Transit Priorities Survey

Between May 16 and August 8, we heard from over 1,400 respondents about how the MBTA should prioritize investment over the next 25 years. We asked respondents about their top investment priorities, which modes they would prioritize for increased capacity, and how they would expand access to MBTA services.

USING MBTA SERVICES

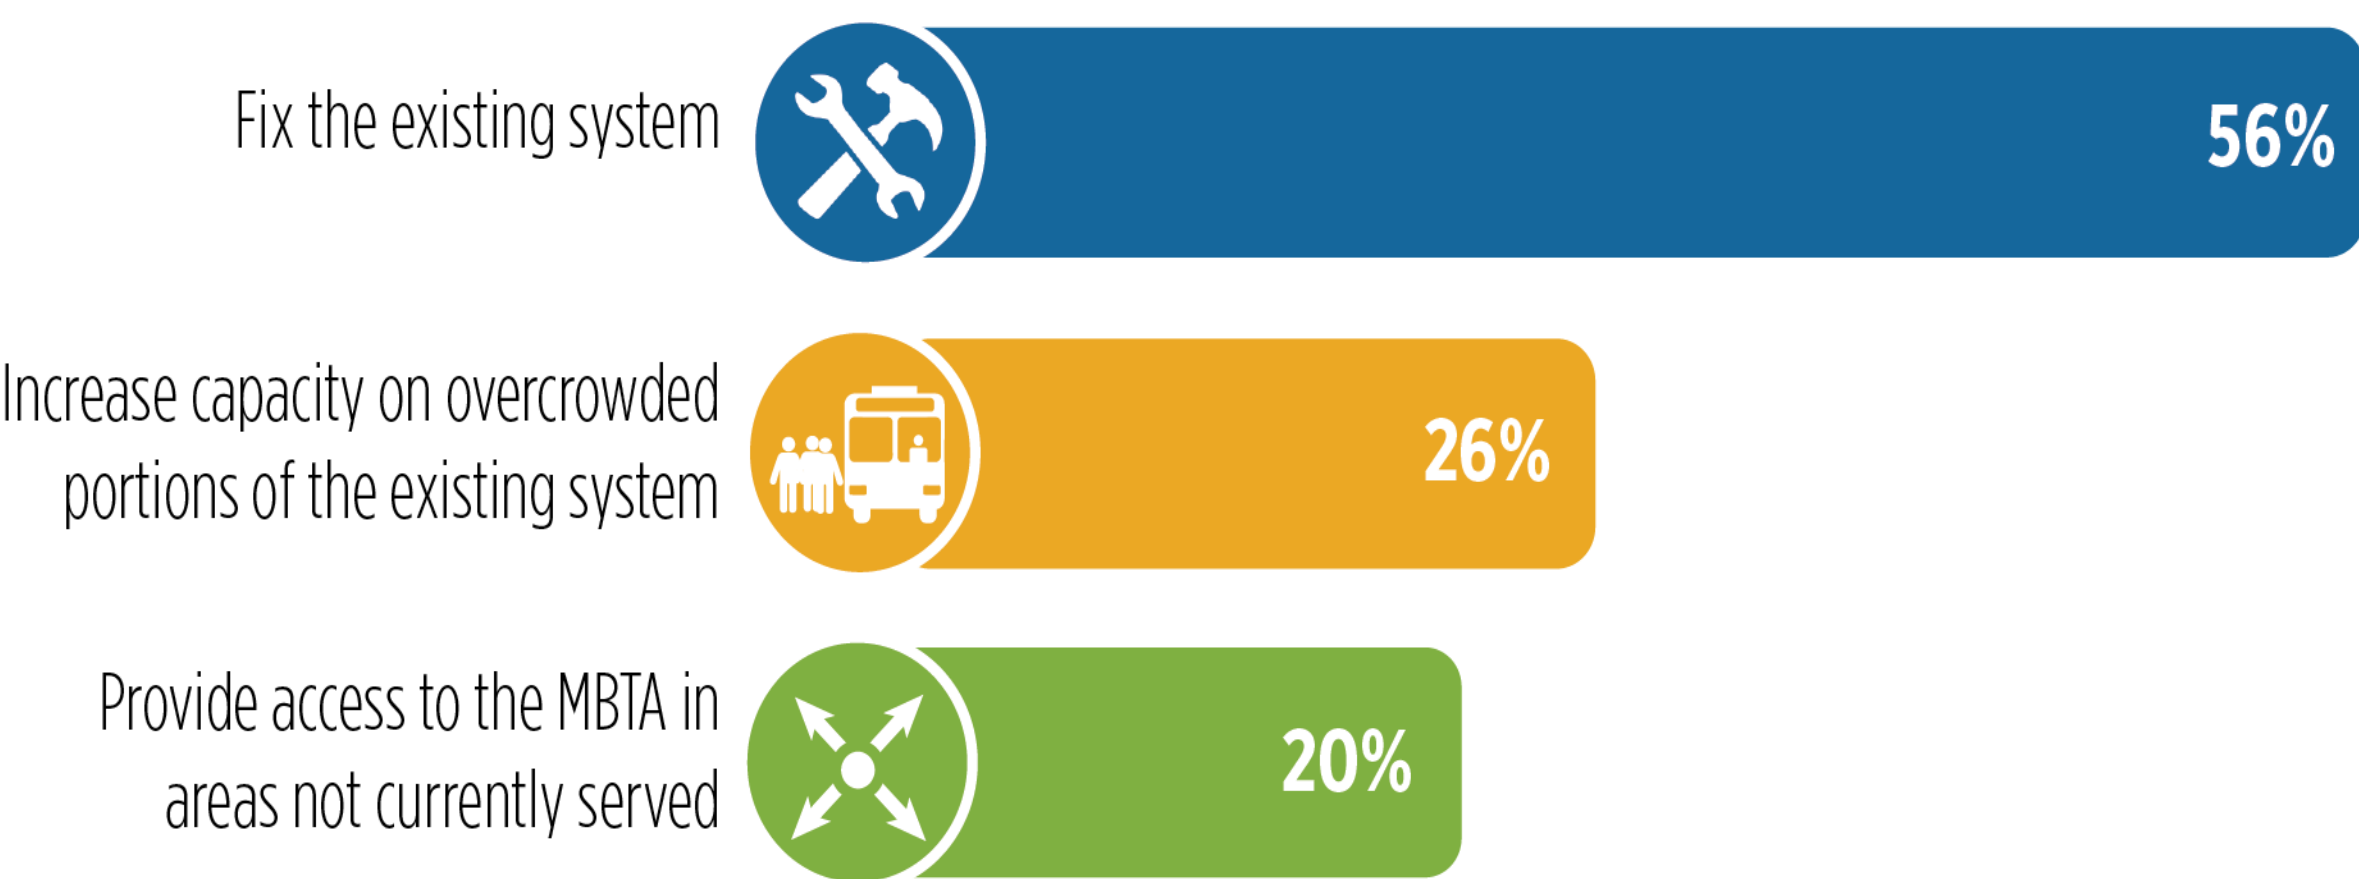

Which services do you use at least once a week?

Note: Many respondents selected more than one mode; results may not add up to 100%.

INVESTMENT PRIORITIES

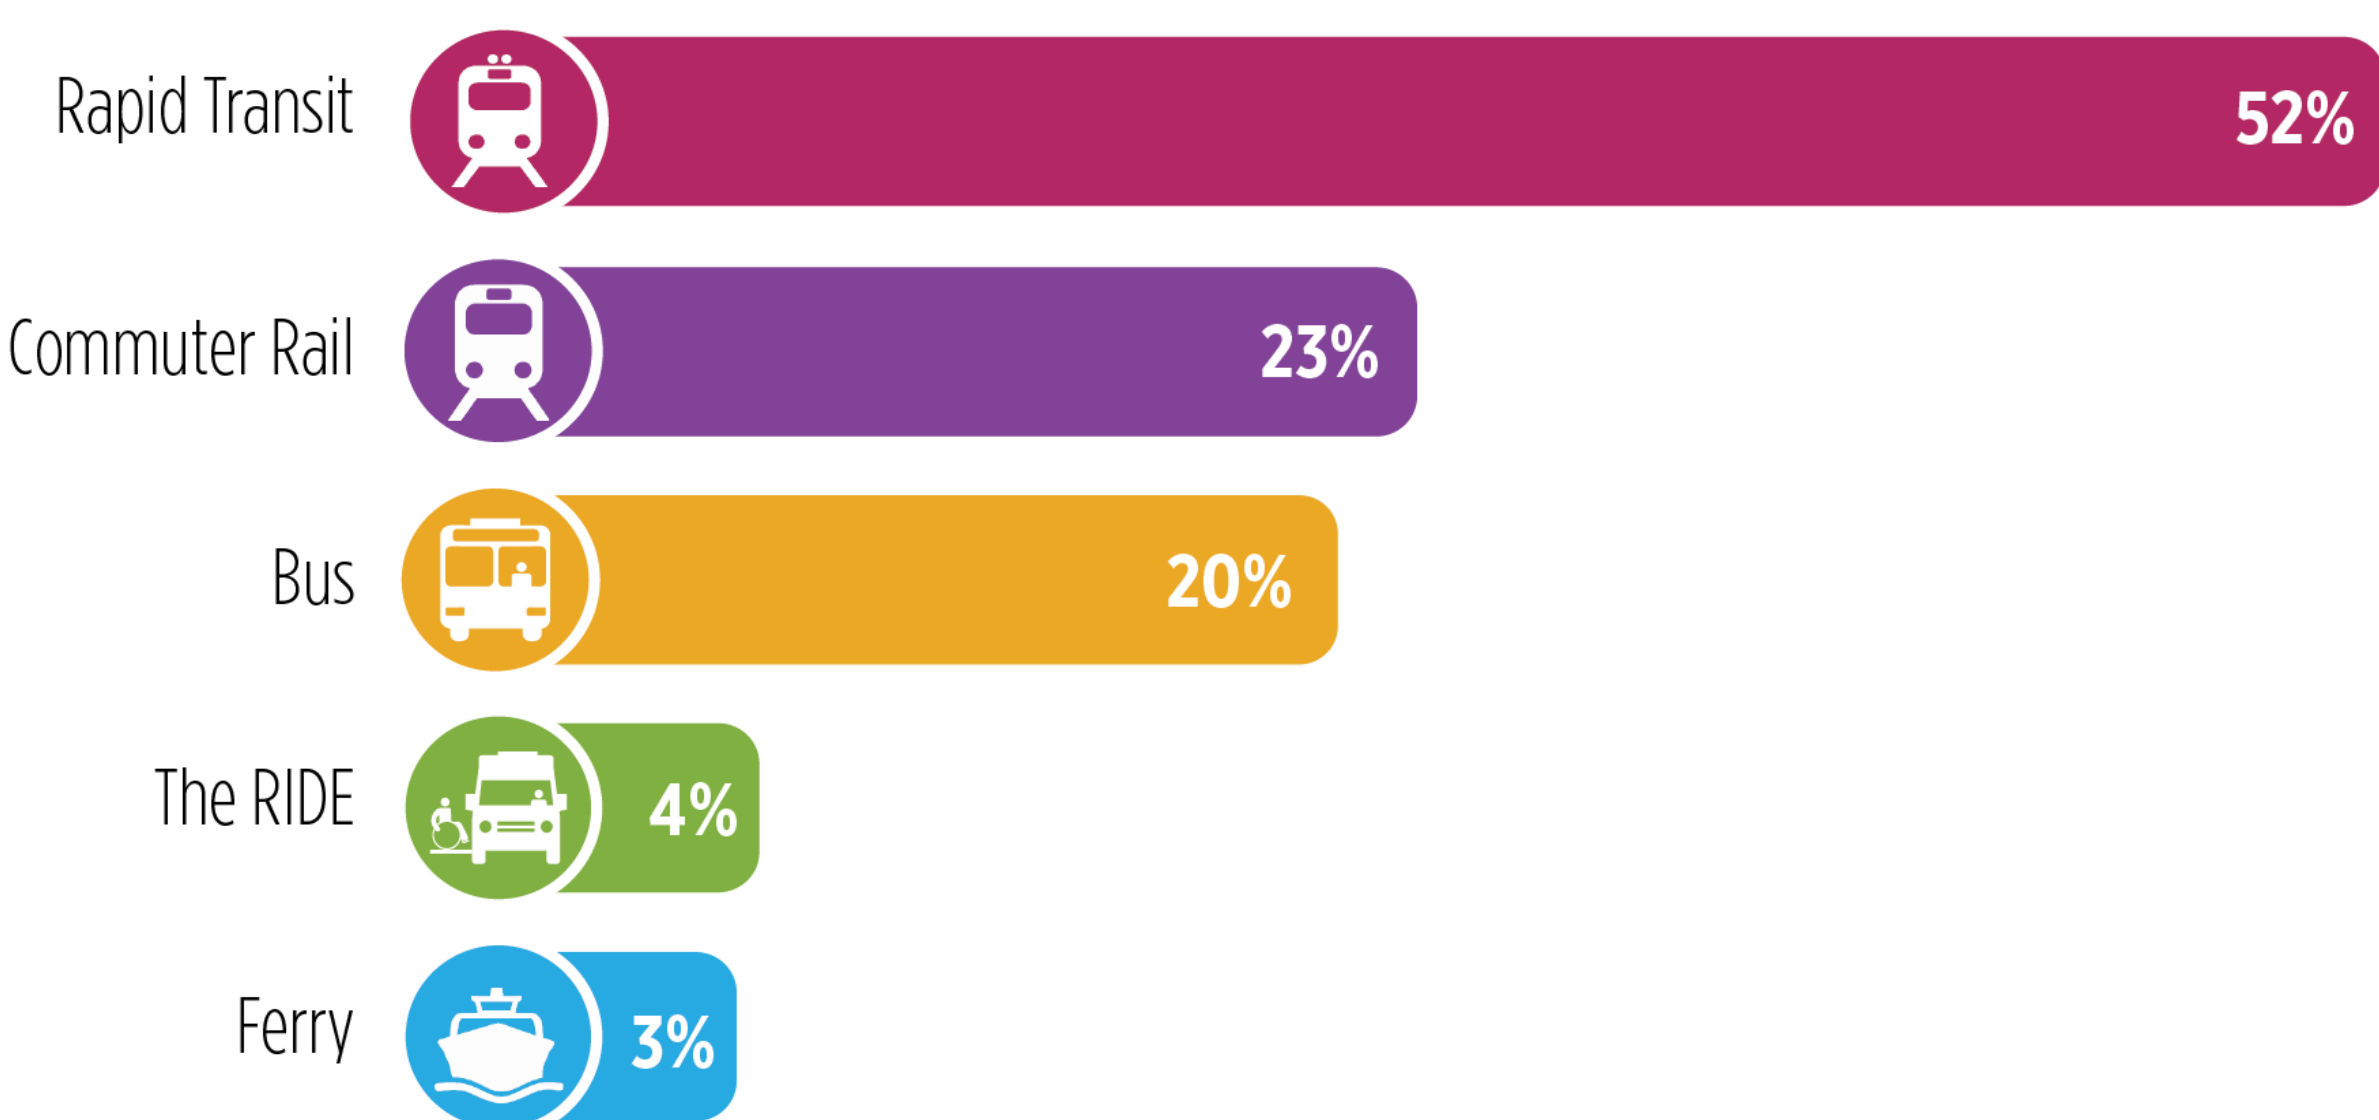

How would you allocate investment among these categories?

Note: Results are the average percentage allocated for each category and may not add up to 100%.

INCREASING SYSTEM CAPACITY

How would you allocate funding to increase capacity by mode?

Note: Results are the average percentage allocated for each category and may not add up to 100%.

EXPANDING ACCESS TO MBTA SERVICES

If you had 20 points to spend on expanding service, how would you allocate these points?

Note: Results are the average points allocated for each category and may not add up to 20 points.

If you had 20 points to spend on increasing capacity, how would you allocate these points?
